

## CONTENTS

<b>Executive Summary.....</b>	<b>i</b>
<b>Section 1. Introduction.....</b>	<b>1</b>
Early Years.....	2
Post World War II .....	3
California's Marine Heritage .....	4
Marine Life of California .....	6
Factors Affecting Marine Wildlife Populations.....	7
The Marine Life Management Act.....	8
Recent Developments.....	9
Marine Protected Areas Generally.....	10
MLPA Initiative Process .....	12
Roles in the Marine Life Protection Act Initiative.....	13
Organizational Partners, Committees, and Teams.....	13
Master Plan Framework .....	16
<b>Section 2. Process for Designing Alternative Marine Protected Area Network Proposals .....</b>	<b>18</b>
The Blue Ribbon Task Force MPA Design Process .....	19
Task 1: Regional MPA Planning .....	24
Activity 1.1: Convene regional process.....	26
Activity 1.2: Develop additional advice .....	27
Activity 1.3: Prepare regional profile .....	27
Activity 1.4: Determine key locations for MPAs to meet the MLPA goals within the region .....	28
Task 2: Assemble Draft Regional Alternative MPA Proposals .....	28
Activity 2.1: Recommend potential changes to existing MPAs.....	28
Activity 2.2: Assemble alternative MPA packages for the region.....	28
Task 3: Evaluate Alternative MPA Proposals .....	29
Activity 3.1: Evaluate alternative MPA proposals .....	29
Activity 3.2: Identify monitoring and evaluation indicators.....	29
Activity 3.3: Forward proposals to Commission.....	30
Task 4: Commission Consideration and Action .....	30
Activity 4.1: Commission review of proposals.....	30
Activity 4.2: Formal regulatory process.....	30
Activity 4.3: Public testimony.....	30
Activity 4.4: Commission acts on alternative regional MPA proposals.....	30
<b>Section 3. Considerations in the Design of MPAs .....</b>	<b>31</b>
Goals of the Marine Life Protection Program.....	31
MPA Networks .....	33
Science Advisory Team Guidance on MPA Network Design .....	34
Consideration of Habitats in the Design of MPAs.....	40
Species Likely to Benefit from MPAs .....	45
Biogeographical Regions .....	46
Types of MPAs.....	48
State Marine Reserve .....	49
State Marine Park .....	50
State Marine Conservation Area .....	50
State Marine Recreational Management Area.....	51
Combined use of marine reserves, marine parks and marine conservation areas .....	51
Levels of protection for MPA classification .....	51
Setting Goals and Objectives for MPAs.....	56
Enforcement and Public Awareness Considerations in Setting Boundaries .....	59
Information Supporting the Design of MPAs.....	60
Other Programs and Activities Other Than Fishing .....	61

<b>Section 4. Management.....</b>	<b>64</b>
Structure of regional MPA management plans .....	65
Description of major elements.....	66
<b>Section 5. Enforcement.....</b>	<b>70</b>
Existing Enforcement Assets .....	70
MPA Enforcement Considerations.....	72
Enforcement Plan Objectives.....	73
<b>Section 6. Monitoring and Adaptive Management of MPAs.....</b>	<b>75</b>
Developing a Monitoring and Evaluation Program for MPAs and Network Components.....	76
<b>Section 7. Funding.....</b>	<b>82</b>
MLPA funding history .....	82
Blue Ribbon Task Force input on funding.....	83
Appropriate Sources of Funds .....	84
Expected activities required to implement the MLPA .....	84
Possible partners in funding or performing activities required to implement the MLPA .....	86
Expected duration and levels of expenditures .....	86
Structures for receipt and allocation of funds.....	87
<b>Section 8. Regional MPA Management Plans.....</b>	<b>88</b>
8.1: North Coast Region (California/Oregon border to Alder Creek near Point Arena).....	88
<b>Timeline to be Determined</b>	
8.2: North-Central Coast Region (Alder Creek near Point Arena to Pigeon Point) .....	88
<b>Planned Completion 2009</b>	
8.3: San Francisco Bay Region (Waters within San Francisco Bay).....	88
<b>Timeline to be Determined</b>	
8.4: Central Coast Region (Pigeon Point to Point Conception) .....	88
8.4.1 Introduction .....	88
Description of region .....	88
Regional design and implementation considerations .....	91
Regional goals, and objectives .....	92
Description of individual MPA boundaries (including maps), regulations, and objectives .....	94
8.4.2. General Activities and Locations .....	136
Baseline Scientific Monitoring and Research plan .....	136
Long-term and Ongoing Monitoring Plan .....	141
Outreach, Interpretation and Education plan.....	171
Enforcement plan.....	171
8.4.3. Operations .....	176
Equipment and Facilities .....	176
Staffing.....	176
Collaborations and Potential Partnerships .....	177
8.4.4. Costs and Funding.....	178
Estimated costs .....	178
Potential funding sources .....	178
8.4.5. Timelines and Milestones .....	178
Timeline and Criteria for Implementation .....	178
Timeline for Evaluation and Review of Effectiveness.....	178
8.5: South Coast Region (Point Conception to U.S./Mexico Border) .....	178
<b>Timeline to be Determined</b>	
<b>Literature Cited .....</b>	<b>179</b>

## **List of Figures**

Figure 1. Players in the Marine Life Protection Act Initiative .....	13
Figure 2. Process for MPA planning in study regions .....	21
Figure 3. Flowchart of the review process to determine if individual, regional, and MLPA goals are being met by the various types of MPAs and other management measures .....	32
Figure 4. An example of sea surface temperature in the California coastal waters, May 30, 2000.....	43
Figure 5. Flowchart of process to establish and conduct a monitoring program.....	78

Figure 6. Año Nuevo State Marine Reserve and Greyhound Rock State Marine Conservation Area.....	97
Figure 7. Natural Bridges State Marine Reserve.....	100
Figure 8. Elkhorn Slough State Marine Reserve, Elkhorn Slough State Marine Park, and Morro Cojo Lagoon State Marine Reserve .....	102
Figure 9. Soquel Canyon State Marine Conservation Area and Portuguese Ledge State Marine Conservation Area .....	105
Figure 10. Edward F. Ricketts State Marine Conservation Area, Lovers Point State Marine Reserve, and Pacific Grove State Marine Conservation Area and Asilomar State Marine Reserve.....	108
Figure 11. Carmel Pinnacles State Marine Conservation Area, Carmel Bay State Marine Conservation Area, Point Lobos State Marine Reserve, and Point Lobos State Marine Conservation Area .....	113
Figure 12. Pt. Sur State Marine Reserve and Pt. Sur State Marine Conservation Area.....	118
Figure 13. Big Creek State Marine Reserve and Big Creek State Marine Conservation Area .....	121
Figure 14. Piedras Blancas State Marine Reserve and Piedras Blancas State Marine Conservation Area.....	125
Figure 15. Cambria State Marine Park and Cambria State Marine Reserve .....	127
Figure 16. Morro Bay State Marine Reserve and Morro Bay State Marine Recreational Management Area with no-take portion of the SMRMA indicated.....	130
Figure 17. Pt. Buchon State Marine Reserve and Pt. Buchon State Marine Conservation Area including the Diablo Canyon Nuclear Power Plant Safety Zone .....	133
Figure 18. Vandenberg State Marine Reserve.....	136

## **List of Tables**

Table 1: Process for MPA planning in study regions.....	22
Table 2: Comparison of potential marine protected area goals .....	59
Table 3. Central coast enforcement personnel with marine emphasis (2005) .....	71
Table 4. Natural Resource Enforcement Assets in California .....	72
Table 5. Central coast MPA objectives that will be met by adoption and implementation of the MPA .....	147
Table 6. Central coast MPA monitoring activities based upon MLPA Goals and individual MPA objectives .....	149
Table 7. MPAs with deep water (> 30 m) hard bottom habitat (area in mi <sup>2</sup> ) .....	158
Table 8. Focal fish and invertebrate species for deep water (> 30m) hard bottom habitats .....	158
Table 9. MPAs with shallow water (< 30m) hard bottom habitat (area in mi <sup>2</sup> ) .....	160
Table 10. Focal fish and invertebrate species for shallow water (< 30m) hard bottom habitats .....	161
Table 11. MPAs with mid and deep water (>30 m) soft bottom habitat (area in mi <sup>2</sup> ) .....	162
Table 12. Focal fish and invertebrate species for mid and deep water (> 30 m) soft bottom habitats.....	163
Table 13. MPAs with rocky intertidal habitat (area in mi <sup>2</sup> ) .....	164
Table 14. Focal fish and invertebrate species for intertidal hard bottom habitats .....	164
Table 15. Focal marine birds and mammals .....	165
Table 16. MPAs with coastal marsh and estuary habitat (area in mi <sup>2</sup> ).....	167
Table 17. Focal species for estuaries.....	167
Table 18. Enforcement considerations for central coast region MPAs .....	172
Table 19 Central coast enforcement personnel with marine emphasis (August 2006).....	174
Table 20. Existing data collection efforts which may provide information or potential collaboration in the Central Coast study region .....	177

## **Appendices (a separate document)**

- A. The Marine Life Protection Act
- B. The Marine Managed Areas Improvement Act
- C. Implementation of the Marine Life Protection Act: 1999-2004
- D. Strategy for Stakeholder and Interested Public Participation
- E. Social Science Tools and Methods
- F. Outline of Information Required for Proposals for Alternative Networks of Marine Protected Areas
- G. Master List of Species Likely to Benefit from Marine Protected Areas
- H. Summary of Recent and Ongoing Processes Related to the Marine Life Protection Act Initiative

- I. List of Existing State Marine Protected Areas prior to MLPA Implementation (January 2005)
- J. Glossary and Defined Terms
- K. Marine Life Protection Act Initiative Lessons Learned Report from the Central Coast Regional Process
- L. Marine Life Protection Act Initiative Estimated Long-Term Costs to Implement the California Marine Life Protection Act
- M. Marine Life Protection Act Initiative Consultant's Adaptive Management and Monitoring and Evaluation Framework
- N. Marine Life Protection Act Initiative Task Force Memo and Consultants' Report on Options for Funding the Marine Life Protection Act
